

PCH's 2025 Wrapped

Dear Friend,

From meaningful milestones to everyday moments that matter, last year was made possible by an incredible community of supporters who gave their time, talent, resources, and heart. **YOU** helped PCH continue to provide the essential housing needs of St. Louisans with intellectual and developmental disabilities (IDD).

This past year reflected what's possible when a community comes together around shared beliefs: home is a human right, and every forever home deserves care, maintenance, dignity, and love.

We are excited for another amazing year of serving our community in 2026, including an inspiring new chapter with our three-year strategic plan that will be unveiled next month. *Stay tuned...*

Before we move on entirely from 2025, we invite you to celebrate its highlights and explore the impact you created!

Thank you to our followers, donors, and partners for all of your generosity, advocacy, and engagement. Thank you to our volunteers, board members, and staff for all of your dedication and hard work. Most importantly, thank you to our residents and their families and friends for trusting us. You are our reason. You are our heart.

Warmly,
Matt Elmore
Executive Director

MAINTENANCE CAN'T STOP, WON'T STOP

PCH's five maintenance technicians **fulfilled more than 2,400 work orders across 88 homes** in 2025!

Beyond their weekly shifts, at least one maintenance technician is on-call 24 hours a day, 7 days a week, 365 days a year for any emergency needs.

Repairs, updates, preventative maintenance, and more encompass the thousands of work orders every year. We are confident in the diverse skills and talents of our maintenance staff. Jason, Ramon, Josh, Rob, and Brent keep every forever home safe, comfortable, and well maintained for nearly 300 adults with intellectual and developmental disabilities (IDD).

Along with all work orders, the team needs to travel regularly to properties throughout St. Louis County, St. Charles County, Jefferson County, and the City of St. Louis.

In 2025 alone, the maintenance team drove 50,494 miles... more than circling the Earth... TWICE!
