

## Storm Recovery

Dear Friend,

The evening of Friday, March 14, was intense, but thanks to our incredible partner agencies, all residents and caretakers remained safe! As you may know, high winds and storms recently swept through the St. Louis area, and unfortunately, not all PCH homes fared well. Our dedicated maintenance team is working tirelessly to address the damage—including fallen trees and branches, destroyed roofs, and displaced windows and siding.

The north county home pictured here suffered severe damage, with major roof damage, porch damage, and siding and shutters. In times like this, we are especially grateful for our donors and the **Forever Home Fund**, which helps cover unexpected, unbudgeted, and emergency repairs.

## SAFETY THROUGH MOBILITY

With support from the [Productive Living Board](#) of St. Louis County, this south county home is receiving new ramps on the front and side entrances. Our friends at [Mullen Concrete](#) work quickly and efficiently to ensure our residents and their care providers see little inconvenience during construction time. We're excited to show the finished product!
